Machine Learning • Technical Project  
Management • Platform Innovation

## PROFILE

A dynamic leader with a strong background in psychometric research and organisational transformation. As a strategic thinker, I excel in innovation and data-driven decision-making. Skilled in both qualitative and quantitative research methods, I integrate cutting-edge technologies to solve complex challenges and tell insight-driven stories. Committed to revolutionising understanding of human behaviour through a blend of science and compassion.

## EXPERIENCE

### FANBOX

#### Head of Operations

2023 - PRESENT

- **Led day-to-day operations and strategic planning** for a 30-person workforce across multiple departments, including full-time, part-time, and freelance staff.
- **Spearheaded AI integration** across consumer-facing products and internal productivity tools, driving both user engagement and operational efficiency.
- **Introduced automation workflows** across analytics, invoicing, and reporting, cutting repetitive admin time and streamlining freelancer payments, achieving a 4x efficiency gain in key operational processes.
- **Designed pricing frameworks** and cost models across consumer products and client deliverables, balancing engagement, scalability, and profitability.
- **Founded and led the Content Department**, overseeing B2B and B2C strategy across social channels
- **Conducted risk assessments** and implemented contingency plans, strengthening company resilience and ensuring business continuity.
- **Partnered directly with founders** to shape company direction, identify new business opportunities, and translate vision into actionable roadmaps.

#### Head of Research, Insights & Audience Activation

2021 - 2023

- **Led an interdisciplinary team** of psychologists, driving audience growth, mixed-method innovation and insights delivery.
- **Directed R&D initiatives** exploring dynamically adapted content and AI-modified media for creative testing.
- **Developed the 'Movie Dimensions' taxonomy** from 13+ million film reviews to support content and audience profiling and power the platform's recommendation generator.
- **Scaled the platform's reach** through an influencer-driven audience acquisition strategy, growing the subscriber base from 5,000 to over 120,000.
- **Integrated data from multiple third-party APIs** with 120,000 Fanbox behavioral profiles into an automated database, improving audience targeting and content personalization.

#### Head of Project Delivery -- Universal Pictures

2020 - 2021

- **Managed Fanbox's largest client, Universal Pictures (\$2M account), overseeing the full research lifecycle.**
- **Negotiated scope and deliverables** to align client needs with internal capacity, protecting margins and maintaining long-term account growth.
- **Conducted creative asset testing** to optimize campaign performance and boost audience engagement across major film releases.
- **Developed detailed audience profiles** for major film IPs, identifying key psychographic and demographic segments, optimal media channels, and core appeal drivers.
- **Provided data-driven insights** to inform decisions around release timing and media planning, directly shaping marketing strategy for major film campaigns.
- **Facilitated workshops with client stakeholders** that reshaped internal approaches to audience research and campaign planning.
- **Led broader market research projects** focused on film industry trends, genre performance, and audience segments to support client strategy, positioning, and long-term planning.

## EXPERIENCE CONT.

### FANBOX

#### Strategy Consultant

2019 - 2020

- **Analyzed results from psychometric research** and translated them into strategic insights for clients in banking, hospitality, music, and film.
- **Conducted qualitative research** including focus groups, interviews, and specialized studies to uncover behavioral and psychological insights.
- **Led R&D initiatives** focused on platform innovation, including early experimentation with machine learning-based features such as automated face-swapping and rotoscoping.
- **Contributed to a pro-bono product** for NHS Foundation Trusts during the COVID-19 pandemic, delivering insights into frontline healthcare professionals' wellbeing and team dynamics.

### Foundation for Integrity & Sports

#### Freelance Lead Research Consultant

2018 - 2019

- **Led a team of five researchers** investigating FIFA corruption and human rights violations linked to Qatar's 2022 World Cup bid.
- **Conducted primary and secondary research** including interviews, financial document analysis, and evidence gathering.
- **Produced briefing papers and content** commentary, and public-facing social media content.
- **Assisted with conference organization** including speaker coordination, guest management, and event logistics.

### Qatar Global Security & Stability Conference

#### Freelance Research Consultant

2018

- **Conducted independent research and interviews** related to Gulf region security and geopolitical stability for international conference.
- **Contributed to briefing materials and talking points** for speakers, and assisted in the selection and coordination of panelists and VIP guests.

### VAKTEC

#### International Business Development Director

2016 - 2018

- **Led international operations and supplier partnerships**, managing relationships with global manufacturers and technology partners to support industrial modernization and expansion.
- **Developed and executed market entry strategies** across the CIS, Eastern Europe, and Asia, establishing new distribution channels and regional partnerships.
- **Negotiated exclusive distribution agreements** with leading OEMs, including MAZAK and OPS-INGERSOLL, significantly expanding the product portfolio.
- **Collaborated with clients' engineering teams** to adapt advanced manufacturing solutions to local market requirements.
- **Represented VAKTEC at global trade shows** and industry events, building brand presence and generating commercial leads.
- **Played a key role in technology transfer project** that enabled VAKTEC to become the first CIS-based manufacturer of carbide blank inserts.
